## **Shriners Hospitals for Children — Erie Welcomes Richard A. Goldberg, D.O.**

Shriners Hospitals for Children — Erie recently announced Richard A. Goldberg, D.O., has joined the team at the Erie Shriners Medical Center. As the only physiatrist practicing pediatrics in Erie, PA, Goldberg will focus on non-surgical care and work with kids who have conditions that cause pain and impair normal, everyday functions.

Goldberg is board-certified in physical medicine and rehabilitation. He received his Doctor of Osteopathy degree from Philadelphia College of Osteopathic Medicine and completed his residency at Johnson Rehabilitation Institute, John F. Kennedy Medical Center.

“The ability to now offer physiatry services to our children and adolescents compliments the excellent patient care our orthopaedists and healthcare professionals provide at Shriners Hospitals for Children — Erie,” says Mary Jane Antoon, administrator, “Dr. Goldberg works with each patient and family, in concert with our multidisciplinary team, to develop an individualized plan of care with the goal of improving function, mobility and quality of life.”

## Save the Date!

### **TUESDAY, MARCH 19— Annual TV Telethon**

In cooperation with JET 24 (ABC) and FOX 66 (Fox), Shriners Hospitals for Children — Erie will host the annual TV telethon from 5—8pm. A phone bank of volunteers will be taking donations in support of the Erie Shriners Medical Center. The annual telethon, which was previously held in September, has been moved to March, to not interfere with the Children's Charity Cup signature fundraising event. Over the past few years the telethon has not only provided a chance to connect with the community and raise funds, but also tell stories of the hope and healing that take place at Shriners Hospitals for Children — Erie.
